It gives me immense pleasure to welcome you to the official webpage of GFDC. GFDC is managing cashew and rubber plantations for commercial production of cashew nuts, fenny and latex. Apart from commercial uses, the GFDC is also providing various tangible and intangible benefits to the society. The tangible benefits include enhancement of green cover and improving aesthetic beauty, providing employment to the rural households, generation of revenue to the government through fenny production, export of cashew nuts, promotion of tourism through maintenance of green cover. The intangible benefits provided by GFDC include maintenance of ecological balance through soil and water conservation, improvement of soil fertility, carbon sequestration and efficient use of marginal and degraded lands.

The GFDC board of Directors and Officials are striving hard to improve the financial status of GFDC and maintain the brand image of Goa as cashew state by increasing the production of cashew and rubber estates. GFDC has lot of potential for growth. I hope, the information given in the webpage will be of great help to the viewers. Suggestions for improving the website are welcome.

Pradeep T. Dessai
Chairman, GFDC
